5. CODE SAMPLES 35
6. LIBRARIES AND DEPENDENCIES 35

1.1.Background

Business Context:

Metro Site Access provides the administrative features to administer incoming Network Corridor Access Applications. This app ensures access to the network is centrally managed and risks to operations, MTM staff, external personnel and passengers are mitigated.

External users (non-Metro personnel) typically submit their applications to access any location of the track network via the Third-Party Access Portal, after which the request progresses to Metro Site

- No infrastructure or architectural modifications

The objective is solely to enhance the application's sustainability by transitioning to a modern, supported frontend technology while preserving all existing behaviour.

Acronym / Term	Definition
MTM	Metro Trains Melbourne
BSS	Business Support Systems
Metro Apps	InForm, OnTrack, Performance Reporting System, Metro Connect, Metro Access, Third Party access and Stations Dashboard.

2.Scope of Change

2.1.Scope Inclusions

2.1.1.AngularJS to ReactJS Rewrite

ACCESS DETAILS 4 / 10

4.1) Purpose of Access *

Government Projects

4.2) Description of Access and Works*

- Crew to set up work area fencing/Barriers prior to the commencement of patching works.
- NDD combo unit to jet and clean lines to ensure drainage line is free of debris prior to patching.
- Pre-CCTV before patching.
- Drainage line to be patched. 2x patches
- Post-patch CCTV to be completed.
- Fencing to be packed up and cleaned before handing back to MTM.

4.3) Does your access require approval from another external authority? *

If more than one authority, please click 'Other' and add in to description.

Not Applicable

4.4) Proposed Access Dates

We require a minimum of 10 business days notice for access.
Proposed dates are subject to MTM approval.

Start Date *

04/11/2024

End Date *

05/11/2024

Specific Date/Time Details *

07:00hrs to 17:00hrs

ACCESS IMPACT 5 / 10

5.1) Rail/ Worksite Separation Fencing or Barrier

Is there any fencing or other form of barrier currently separating the proposed worksite from railway tracks? *

✔ Yes | ✖ No

Describe fencing or other form of barrier *

Waterfilled barriers to delineate vehicles / pedestrains from access to area

5.2) Danger Zone

Do you require access (or will your works have the potential) to enter the rail defined 3m Danger Zone? *

✔ Yes | ✖ No

5.3) Above Ground Electrical Infrastructure

What distance will the proposed works be from MTM above ground electrical infrastructure (includes consideration of Overhead Wiring, Structures and associated Fittings equipment)? *

Not Applicable

5.4) Excavation Requirements

Will your access involve any excavation or ground penetration activities? *

✔ Yes | ✖ No

5.5) MTM Resource Requirements

Do you want MTM to provide you with Rail Safeworking Resources? *

MTM can provide you with qualified resources such as Rail Safeworking Protection.

✔ Yes | ✖ No

Please advise how Rail Safeworking requirements will be assessed and managed for your works. *

Not applicable for this location

DETAILS | APPLICATION | CORRESPONDENCE [1] | FILES | APPROVALS

← PAYMENT 9 / 10 →

The following information has been provided to help inform Applicants of expected charges and costs associated with Metro Trains Melbourne Pty Ltd (MTM) Site Access Application process.

- **APPLICATION LODGEMENT FEE**

  Required as part of your Site Access Application submission, MTM requires payment of an 'Application Lodgement Fee'. The upfront charge covers MTM costs associated with receiving and completing initial assessment of your Site Access Application, as well as preparation of an agreement for engagement of MTM interface support services to process your application. Upon agreeing to MTM Terms & Conditions (refer to Page 10-Site Access Application), you will be redirected to an external payment service provider to complete payment of this fee. Once completed, your application will be finalised and submitted to MTM.

- **SITE ACCESS FEE**

  Upon receiving your submitted Site Access Application, MTM will complete an initial assessment of the request and will designate a defined category for the determined 'Access Type'. Please note that each Access Type category has an associated standard 'Site Access Fee'. This fee is separate and additional to MTM 'Application Lodgement Fee'. The charge covers MTM costs associated with providing interface support services to complete full review and processing of your application to approval. Once the Access Type category has been assigned, MTM will prepare and issue an agreement for engagement of MTM interface support services. This agreement will include the quoted Site Access Fee and must be executed by an 'Authorised Representative' (and include payment for MTM Site Access Fee amount). For more information about MTM Access Types and associated Site Access Fees, please visit our website: www.metrotrains.com.au/metrositeaccess.

- **ADDITIONAL MTM COSTS**

  Please note that separate to the above fees, additional MTM costs may be incurred depending on project interface requirements, project complexity and scope, duration of project delivery.

  Also please be aware that any requests for extension of MTM Site Access approvals will also incur additional separate charge. The cost of this charge will be determined upon assessment of each request.

- **CONTACT FOR FURTHER INFORMATION**

  For more information about MTM's Metro Site Access process, services and fees please visit our website: www.metrotrains.com.au/metrositeaccess. Alternatively, if you have any questions or would like to contact our team, please send an email enquiry to: MetroSiteAccess@metrotrains.com.au.

DETAILS | APPLICATION | CORRESPONDENCE (1) | FILES | APPROVALS

APPLICATION DECLARATION 10 / 10

- Access cannot be initiated by the Applicant unless MTM has issued a formal approval.
- MTM is committed to protecting the privacy of personal information. For further information regarding MTM's Privacy Policy please refer to www.metrotrains.com.au/privacy/.
- Stripe Payments Australia Pty Ltd and its affiliates (Stripe) provides the Applicant with a payment gateway service to pay their Site Access Fees online to MTM. MTM makes no representation of any kind, express or implied, as to the operation of the payment gateway service. The Applicant expressly agrees that their use of the payment gateway service is entirely at their own risk and responsibility.
- MTM, its affiliates or employees shall in no way be liable for any direct, indirect, incidental, special, consequential or exemplary damages, including but not limited to, damages for loss of profits, goodwill, data or any other intangible losses arising out of or in connection with the request for access or access to or usage of the payment gateway service.
- MTM assumes no liability whatsoever for any monetary or other damage suffered by the Applicant on account of any delay, failure, interruption, or corruption of any data or other information transmitted or any interruption or errors in connection with the request for access or the use and operation of the payment gateway service.
- The Applicant must indemnify and hold harmless MTM and their respective officers, directors and employees, from any claim or demand, or actions arising out of or in connection with the request for access or access to or usage of the payment gate service. MTM will not be liable for any failures or for any fraud perpetrated either at the payment gateway and/or at the bank end that could take place during or after the time of the Applicant making payment.
- The Applicant agrees, understands and confirms that any personal data including any debit card/credit card details that is submitted by the Applicant during the time of making payment is transmitted over the Internet and is susceptible to misuse, theft and/or fraud and that MTM has no control over such matters.
- MTM does not in any way guarantee that the use of the payment gateway service will not result in theft and/or unauthorized use of data over the Internet.
- The Applicant may pay Site Access Fees to MTM by using a debit/credit card. The Applicant agrees that when the Applicant initiates a payment transaction and provides the Applicant's debit/credit card details through the payment gateway:
  1. The Applicant warrants that they are fully and lawfully entitled to use the said debit/credit card for such transactions.
  2. The Applicant is responsible to ensure that all the debit/credit card provided by them is accurate.
  3. The Applicant is authorising the debit to the nominated debit/credit card for the settlement of bills selected by the Applicant along with the applicable fees.
  4. The Applicant is responsible to ensure that sufficient credit is available on their presented debit/credit card inclusive of the applicable fees.

If you require further information about the MTM Terms and Conditions, please contact our office via the Metro Site Access team at MetroSiteAccess@metrotrains.com.au.

☑ I acknowledge, understand and accept the Terms and Conditions.

The below is an example of a directive build in AngularJS.

6.Libraries and dependencies

```
'use strict';

/**
 * @ngdoc directive
 * @name uiApp.directive:assessmentApplication
 * @description
 * # assessmentApplication
 */
angular.module('uiApp')
.directive('assessmentApplication', ['$log', 'Review',
    function ($log, Review) {
        return {
            templateUrl: 'views/assessment-application.html',
            restrict: 'E',
            scope: {
                model: '=',
                showing: '='
            },
            link: function postLink(scope, elementUnused, attrsUnused) {
                scope.$watch('showing', function (newValue, oldValue) {
//                    $log.info('New value of showing is ' + newValue);
                    if (true === newValue) {
                        Review.attentionGiven(scope.model.applicationNumber);
                    }
                });
            }
        };
    }
]);
```

zustand	A simple and unopinionated state management library for React with minimal boilerplate.
lodash	A utility library providing helpful functions for working with arrays, objects, and strings.
date-fns	A comprehensive toolset for manipulating and formatting dates in JavaScript.
materialui	A popular React UI framework that implements Google's Material Design principles.
tailwindcss	tailwindcss A utility-first CSS framework for rapidly building custom designs.
storybook	A development environment for building and testing UI components in isolation.
vitest	A fast unit testing framework designed for Vite projects with a Jest-like API.
jest	A robust JavaScript testing framework with features like mocking and snapshot testing.
